Introduction

This report is based on the University of the Pacific's Center for Business and Policy Research Report on COVID-19 and Residents' Journey to Work in San Joaquin County.

The following report utilizes Census American Community Survey (ACS) 1-Year Estimates data for 2017, 2018, 2019, 2021 and 2022. Data is focused on identifying trends in remote work, commute time to work, and share of population using public transportation.

How was Remote Work Impacted in Stanislaus County?

The share of workers working from home more than doubled after the onset of the pandemic. The percentage of people working from home increased from 3.9% in 2019 to 8.7% in 2021. In 2022, it slightly lowered to 7.2% of people working from home.

How were Commute Times Impacted in Stanislaus County?

Commute times remained constant, decreasing from 31.7 minutes in 2019 to 31.4 minutes in 2021. In 2022, commute times dropped by 1.1 minutes to 30.3 minutes.

How was Public Transportation Use Impacted in Stanislaus County?

Stanislaus County public transportation use returned to pre-pandemic levels of use from 0.4% in 2019 to 1.0% in 2021 and 2022. Overall, public transportation use remains low compared to California as a whole.

How was Housing Impacted in Stanislaus County?

Stanislaus County typical home values and market rate rents continued on an upward trend from March 2020 to July 2022. Typical home values were \$333,512 in March 2020 with a peak of \$471,463 in July 2022. Market rate rent was \$1,488 in March 2020, with a peak of \$1,948 in August 2022.

I. Remote Work (Percent of People Working from Home)

Ia. Remote Work (Stanislaus County)

Pre-pandemic there was a decline in remote work from 5.5% in 2018 to 3.9% in 2019. The share of workers working from home more than doubled after the onset of the pandemic. Remote work has remained above pre-pandemic levels, with 7.2% of workers working from home in 2022.

Figure I.1: Percent of People Working from Home in Stanislaus County

(Source: Census ACS 1-Year Estimates)

Ib. Remote Work by County (Stanislaus, Merced, San Joaquin)

Stanislaus County maintained a 5.5% remote work population from 2018 to 2019, only 0.5% less than statewide levels. However, Stanislaus County alone experienced a drop in remote work to 3.9% in 2019.

After the onset of the pandemic, remote work increased across all counties. Despite Stanislaus County remote work increasing to 8.7%, it was still 12.7% below the statewide rate of 21.4%. Notably, none of the counties selected matched the statewide level of remote work.

In 2022, all areas experienced a decrease in remote work. However, remote work rates remained significantly above pre-pandemic levels.

Percent of People working From Home by County

Figure I.2: Percent of People Working from Home by County

(Source: Census ACS 1-Year Estimates)

Ic. Remote Work by Stanislaus County Cities (Modesto, Turlock)

Modesto nearly tripled the percent of people working from home between 2019 and 2021, from 3.1% in 2019 to 8.9% in 2021. Turlock more than doubled in the same time frame, from 3.7% in 2019 to 8.1% in 2021.

In 2022, both cities experienced a decrease in the percent of people working from home. However, Turlock experienced a 2.5% decrease, while Modesto experienced a 1.2% decrease.

II. Average Commute Time (Minutes)

IIa. Average Commute Time (Stanislaus County)

The average commute time to work remained fairly constant in Stanislaus County, dropping from 31.7 minutes in 2019 to 31.4 minutes in 2021. There was a 1.1 minute decrease in commute times from 2021 to 2022.

Mean One-Way Commute Times in Minutes (Stanislaus County)

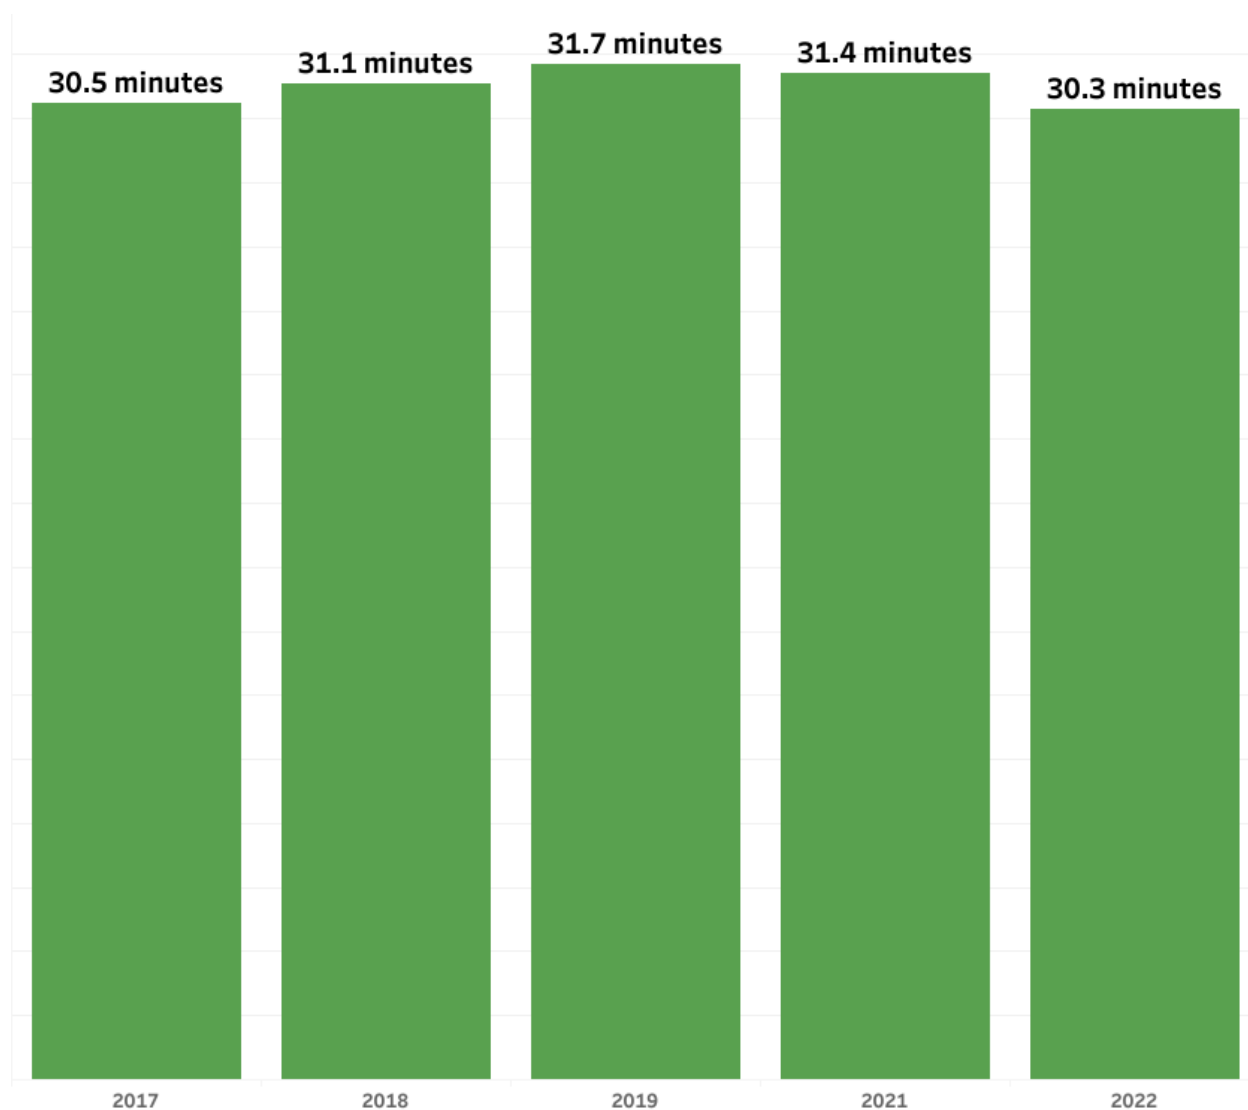

Figure II.1: Average Commute Time to Work for Stanislaus County

(Source: Census ACS 1-Year Estimates)

Iib. Average Commute Time by County (Stanislaus, Merced, San Joaquin)

Although Stanislaus County mirrored statewide trends, it did not have as large of a decrease in average commute time compared to the state. Stanislaus County commute times were lower in 2021 compared to other nearby counties.

In 2022, trends vary by region. San Joaquin County mirrored the statewide trend with average commute time increasing by 0.5 minutes. Both Stanislaus County and Merced County had decreases in average commute times. However, Merced County times decreased by 4.1 minutes while Stanislaus County times decreased by 1.1 minutes.

Mean One-Way Commute Times in Minutes by County

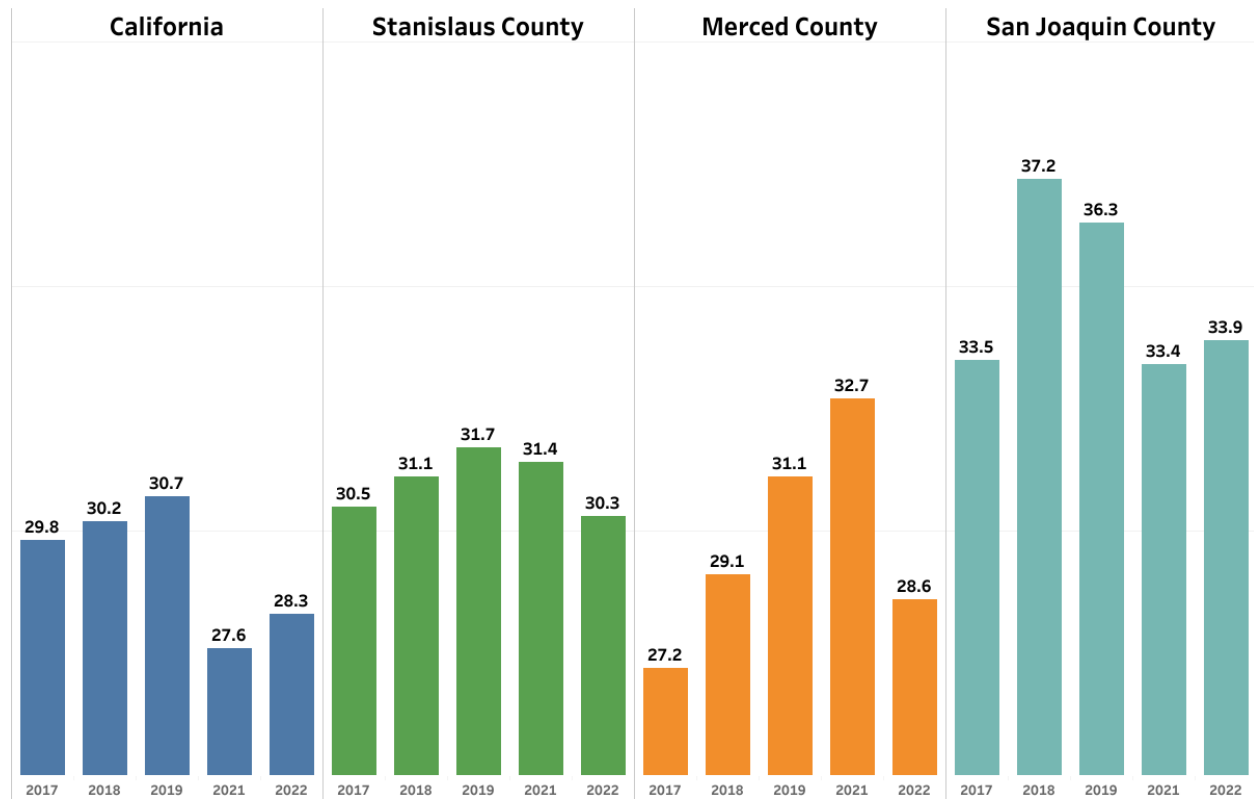

Figure II.2: Average Commute Time to Work by County

(Source: Census ACS 1-Year Estimates)

Ic. Average Commute Time by Stanislaus County Cities (Modesto, Turlock)

Turlock commute times have consistently remained lower than Modesto commute times.

Modesto commute times considerably increased from 28.2 minutes in 2019 to 32 minutes in 2021. Alternatively, Turlock saw a considerable decrease in commute times from 26.6 minutes in 2019 to 24.8 minutes in 2021. This could be linked to the increase in public transportation use for Modesto compared to Turlock.

In 2022 both cities returned closer to their pre-pandemic levels with a 3.5 decrease in Modesto average commute times and a 1.4 increase in Turlock average commute times.

Figure II.3 Average Commute Time to Work by Stanislaus County Cities

(Source: Census ACS 1-Year Estimates)

III. Public Transportation Use

IIIa. Public Transportation Use by County (Stanislaus, Merced, San Joaquin)

Stanislaus County public transportation use did not follow California trends. Stanislaus County was the only County with an increase of use in 2021, from 0.4% in 2019 to 1.0% in 2021.

Overall, Stanislaus County public transportation use remains low compared to California with no change from 2021 to 2022.

Percent of People Commuting Via Public Transportation by County

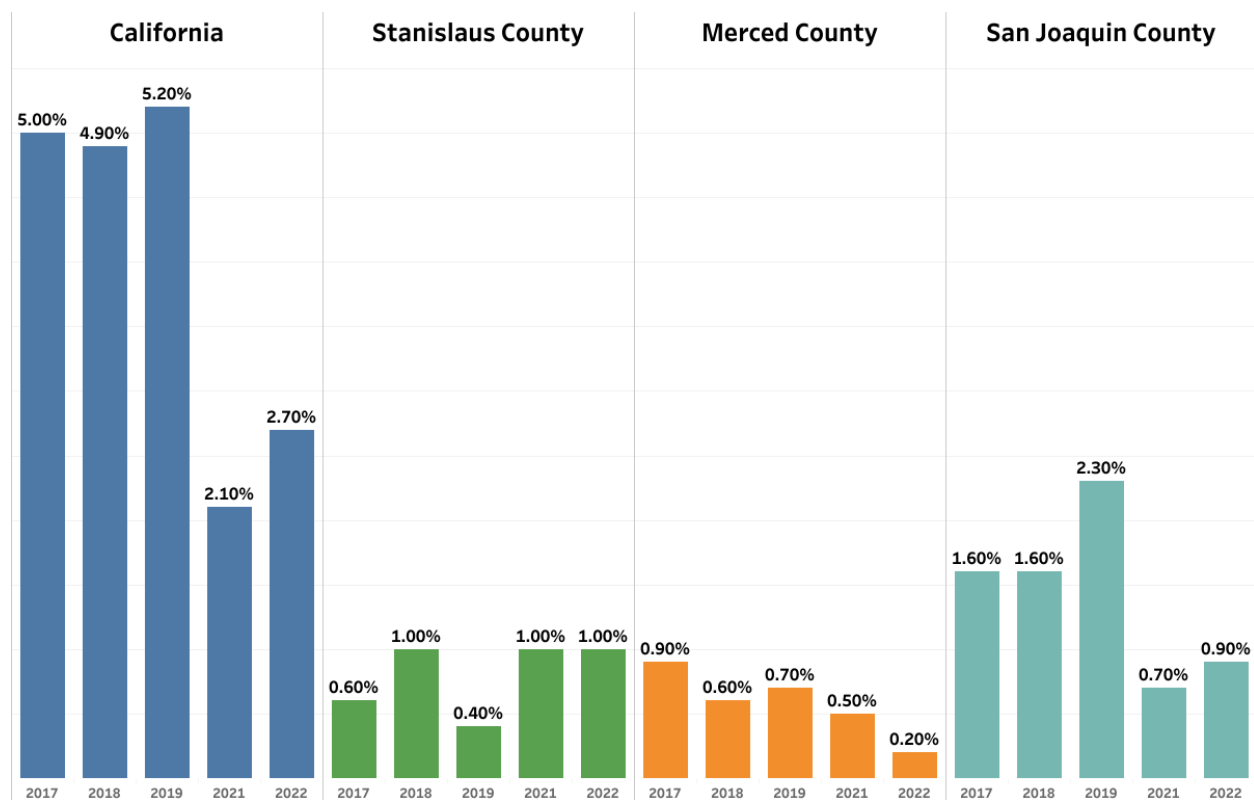

Figure III.1: Percent of People Commuting Via Public Transportation by County

(Source: Census ACS 1-Year Estimates)

IIIb. Public Transportation Use by Cities (Modesto, Turlock)

Modesto had seven times more public transportation use between 2019 and 2021, from 0.2% in 2019 to 1.4% in 2021. Turlock followed statewide trends with a decrease in public transportation use. However, the impact was more drastic for Turlock with use decreasing from 1.4% in 2019 to 0.2% in 2021.

Trends from 2019 to 2021 continued in 2022. Modesto's upward trend continued with a 0.9% increase, while Turlock's downward trend continued with a 0.2% decrease.

IIIc. Stanislaus Regional Transit Authority (StanRTA) Ridership in Thousands

Data Note: The data items are reported as the number of unlinked passenger trips. Unlinked passenger trips are defined as the number of passengers who board public transportation vehicles. Passengers are counted each time they board vehicles no matter how many vehicles they use to travel from their origin to their destination.

StanRTA ridership was on an upward trend from 70,900 trips in January 2021 to 227,200 trips in October 2022. Ridership experienced a steep decline from 227,200 trips in October 2022 to 172,500 trips in December 2022. 2022 ridership by month has remained above 2021 levels of ridership for the same month.

IV. Housing Trends (Home Value, Rent, Jobs to Housing Ratio)

IVa. Stanislaus County Home Value

Stanislaus County typical home values have been on an upward trend since December 2011. Typical home values were \$333,512 in March 2020 with a recent peak of \$471,463 in July 2022.

Stanislaus County Typical Home Value (Homes in 35th to 65th Percentile)

(Source: Zillow Home Value Index)

IVb. Stanislaus County Market Rate Rent

Stanislaus County market rate rent has continued in an upward trend since March 2015. Market rate rent was \$1,488 in March 2020, with a recent peak of \$1,948 in August 2022.

Stanislaus County Market Rate Rent (Rents in 40th to 60th Percentile)

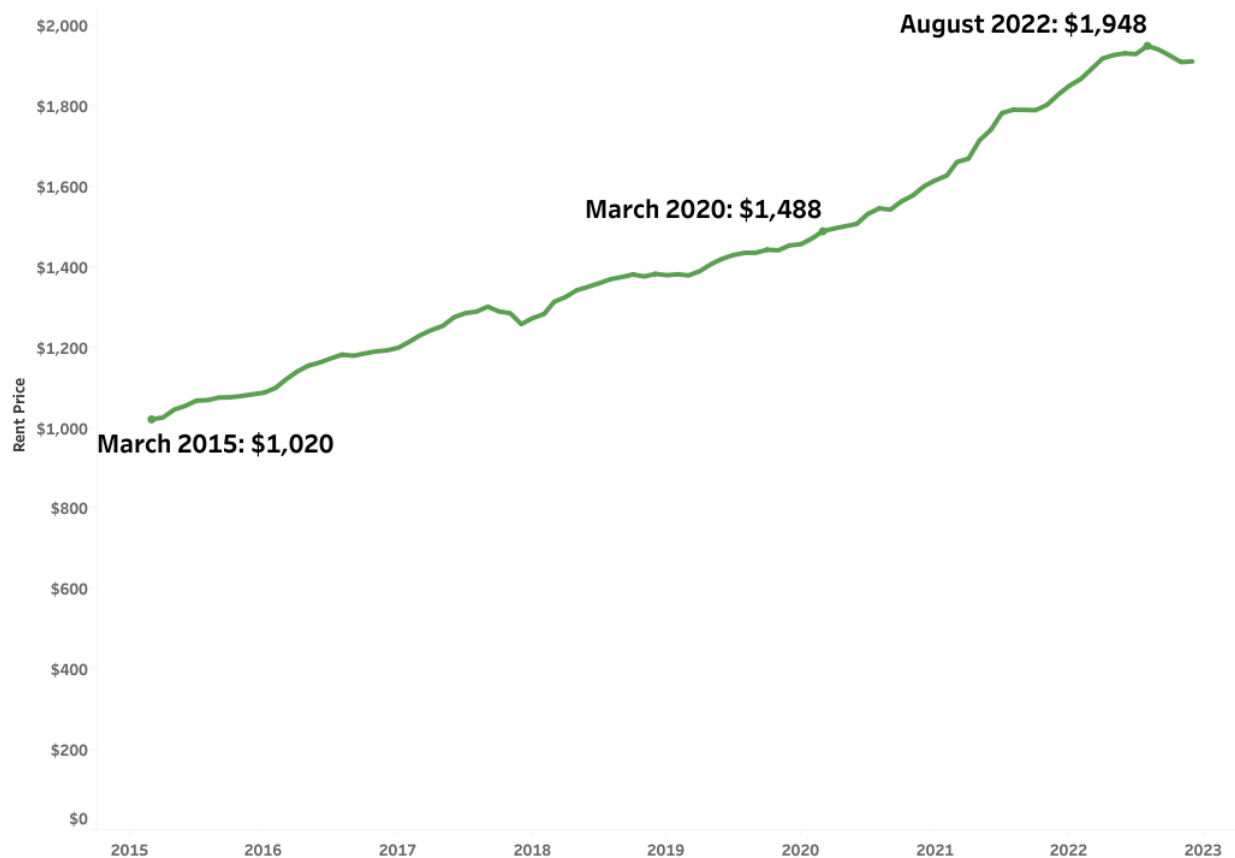

Figure IV.2: Stanislaus County Market Rate Rent (Rents in 40th to 60th Percentile)

(Source: Zillow Observed Rent Index)

IVc. Stanislaus County Jobs to Housing Ratio

A jobs to housing ratio of above 1.5 indicates that many workers likely commute into the area, whereas a score of less than 0.75 indicates that many workers likely commute out of the area. Stanislaus County Jobs to Housing Ratio has remained relatively constant with values of 1.16 in 2017 and 1.19 in 2022.

Agriculture Sector Partnership – Workforce Development Subsector Meeting & Sector Meeting Recap

Subsector Meeting, Agenda below:

Agriculture Sector Partnership – Workforce Development

Subsector : Nut Industry

Agenda: July 18, 2023 : 3:00-4:00pm

- *3:00-3:10pm : Introductions*
- *3:10-3:20pm : What is Workforce Development & Farm Bureau Partnership*
- *3:20-3:50pm : Group Discussion*
- *3:50-4:00pm : Next Steps and Closing*

New Hires

- 1. What type of positions do you have in your operation?*
- 2. Did you have trouble filling any positions last season? If yes, then what positions?*
- 3. What qualities/abilities do you look for in an applicant?*
- 4. Are recent hires lacking any training/skills/abilities that you expected them to have, like soft skills?*

Current Employees

- 5. Have there been any changes or updates in equipment or technology that required you to retrain current employees? If yes, then what have been those updates?*
- 6. Is there any kind of training you would like to see available for newly promoted employees? (Communication, reporting, employee management, etc.)*
- 7. Are there any training or employee development opportunities that you would like, but they have been too expensive?*
- 8. Are there any certifications or certificate programs that would help, or are required, for an employee to be promoted?*

Attendance:

Farm Bureau did a data request from the Stanislaus County Agricultural Commissioner to obtain a list of all of the non-ag permits in their system, a permit type required by Nut Processors. Thirty-five processors were invited to the meeting. Grower Direct was the only processors to attend, along with Workforce Development, Farm Bureau and the Almond Board. See below for a copy of the sign in sheet.

Meeting Notes:

While attendance was small, it allowed for frank conversation in regards to current challenges with the workforce.

Challenges identified by Grower Direct:

- Basic job skills needed, ie. Showing up on time
- Forklift operators versus forklift drivers (operators can trouble-shot, assess hazards, make changes in real-time based on changes in the environment)
- Machine operators are needed
- Learning new software (there are changes to software annually)
- Basic computer skills, ie. Knowing how to navigate a tablet in the field/warehouse
- Supervisory skills, ie. Coaching, managing labor needs, taking ownership of projects, how their decisions in operations play a large role in the impact to the company (Lean Six Sigma Black Belt Certification and Supervisory Development Program (SDA) was discussed here)
- Knowing how to use MS Excel

Next Steps:

- Grower Direct reached out to Farm Bureau to sign up almost 40 employees for SDA. Anna connected them with Chris Hancock, Workforce Development, and Theresa Kiehn, AgSafe. Grower Direct plans to utilize Incumbent Worker Training funds to work directly with AgSafe to provide an inhouse SDA for just their employees.
- While forklift operator training does not qualify for incumbent work training, we discussed a warehouse logistics training that could include: equipment training (specific to the industry, possibly bring in a trainer from the vendor), software training (this is upgraded annually), product knowledge and Lean Training ideas.

“Stan Partnerships in Action, Unifying Businesses, Building Prosperity”

Stanislaus Equity Partners hosted the first of two listening sessions for the underserved business sector strategy work on Tuesday, September 26 from 5:30-7:30pm in downtown Modesto. Our outreach included social media posting, in-person, flyer outreach (350) and email blasts. Many partners also shared our information on their communications.

We followed an empathy interview guide for the facilitated discussion during the table break outs with 2-4 business owners at the tables. The main topics that were discussed as needs for business owners were access to capital, development of entrepreneurship mentorship / networking, and needing a roadmap of business services and contacts in our community.

- We had **over 30** attendees including our staff, volunteers and supporting partners.
- **We had 12 businesses show up.**
 - Community service, professional services, marketing, automotive, retail and food industry businesses.
- We had 23 RSVPS.
 - Actual businesses: 19
- STEP Notes + Observations
 - Clearer understanding of the point of the sessions. Be relevant for everyday entrepreneur.
 - Turn out: Could be better offer incentives for more people to come to the next session? GC?

Our agenda was as follows:

- 5:30 pm: Quick Welcome
- 5:40 pm: Official Welcome & Format
- 5:50 pm: County Workforce Development Presentation
Mariana Fonseca, Business Services Representative, SCWD
- 6:00 pm: Table Break Outs
- 7:00 pm: Share Out/Recap (Notetaker/business owners share high level themes)
Chris to make a quick announcement thanking partners; MH to translate in Spanish.
- 7:20 pm: Next Steps - Evaluation Form & Invitation to Participate in Future Sessions & Planning
- 7:30 pm: Close

Next steps: From the listening sessions we will come up with business owner needs topics for three workshops. Our first workshop will focus on access to capital with a business loan readiness workshop on Tuesday, Dec. 5th at the City of Ceres Community Center at 5:30pm. The next listening session is planned to be held the last week of January 2024 or early February 2024. A committee of business owners is being gathered to assist in the planning and outreach for the second listening session.

Stanislaus County Business Development Committee Agenda Item

TO: Business Development Committee

FROM: Doris Foster, Director

I. SUBJECT:

Review the Outcome of the First Half of the Employer Assessment Contract (WorkKeys) for the 2023-2024 Fiscal Year and Approve Not Renewing the Contract

II. ITEM NUMBER: 5.C.

III. ITEM TYPE: Discussion and Action

IV. STAFF RECOMMENDATION:

Reviewal of the first half of the Employer Assessment Contract (WorkKeys) for the 2023-2024 Program Year and approve not renewing the Contract.

V. POLICY ISSUE:

Per 20 CFR Parts 676, 677, and 678, § 678.430 Employer Assessments is defined as a basic career services that provides initial assessment of skill levels including literacy, numeracy, and English language proficiency, as well as aptitudes, abilities (including skill gaps).

VI. DISCUSSION:

Stanislaus County Workforce Development utilizes contract services in order to provide greater services to the community that can be leveraged by creating outside partnerships. Employer Assessment - WorkKeys are offered to local business to assist in making hiring and promotion decisions. The array of assessments measure foundational skills required in the workplace. Workforce Development provides E-Skills and WorkKeys. E-skills is an array of assessments and can be accessed at any Job Center. WorkKeys is based on Business Referrals and is provided by a Contract with Opportunity Stanislaus.

The current Employer Assessment - WorkKeys Contract included the following:

1. Proctor WorkKeys assessment for new hires, incumbent workers, apprenticeship programs, and internship programs of clients for local businesses.
2. Score assessments and enter data.
3. Order materials and invoice employers.
4. Refer job seekers and businesses to America's Job Center of California (AJCC) services as needed.

5. Provide a monthly report of total assessments, referrals, and outcomes to Stanislaus County Workforce Development by the 5th business day of the following month. Reported outcomes should include hires, promotions, and entry into training directly related to WorkKeys testing.
6. Gather satisfaction surveys from businesses and submit copy with monthly reporting. Surveys will be conducted at least every quarter.
7. Market, advertise, and promote WorkKeys assessment testing to target more diversified businesses to in-demand sectors in Stanislaus County.

During the 2018-2019 Fiscal Year, Workforce Development released a Request for Proposal for Employer Assessment Services. Based on the scoring of the proposals received in response to the Request for Proposal, Opportunity Stanislaus ranked the highest and was awarded the Employer Assessment Services Contract. The contract was a one-year term with the option to renew for two additional years. The three years of the contract ended June 30, 2022. The amount of the contract was \$50,000 each year for the three years.

For the 2022-2023 Fiscal Year, at the June 2, 2022 Business Development Committee meeting, the Committee approved the Pre-Employment Assessment Survey results regarding Employer Assessment and approved the recommendation of services to the Workforce Development Board. Additionally, the Committee also recommended that a budget of \$5,000 for marketing be included in the funding. The Committee approved the internal Pre-Assessment tools currently used as well as the Employer WorkKeys Pre-Assessment tool.

At the July 11, 2022 Workforce Development Board meeting the Board approved the recommendation made by the Business Development Committee to engage in the Pre-Employment Assessments of WorkKeys in the Amount of \$55,000 (which included the additional \$5,000 for marketing).

For the 2023-2024 Fiscal Year, at the March 2, 2023 Business Development Committee meeting, upon reviewing the quarterly WorkKeys Testing Report, the Committee requested further information with regards to the additional \$5,000 in marketing funds. The Committee requested a detailed report on how the marketing funds had been used, if there had been any social media campaigns, and if these campaigns were found to be useful. The Committee also requested feedback if Opportunity Stanislaus felt there was anything Workforce Development could do in order to assist in obtaining more visibility to encourage more employers to utilize WorkKeys.

On May 10, 2023 Opportunity Stanislaus hosted a marketing event called “Unlocking the Power of WorkKeys”. Opportunity Stanislaus summarizes where the marketing focus has been placed during this last fiscal year as well as details of the event and the results obtained from it.

At the June 1, 2023 Business Development Committee meeting the Committee reviewed the results of the 2022-2023 WorkKeys Assessments from September 1, 2022 to April 30, 2023. At that time the Committee agreed to renew the employment assessment contract (WorkKeys) for the amount of \$25,000 for 6 more months with the requirement that they acquire 4 new businesses and perform 1,000 assessments within that time frame. The

contract would then be presented back to the Business Development Committee at the December meeting for possible extension.

As shown in Attachment A to this Agenda Item for the period July 1 through November 30, 2023 a total of 1 new business was acquired and 270 total assessments were performed. Therefore showing that the above stated requirements were not met it is recommended that the Committee not extend the contract for the remaining 6 months of the 2023-2024 Program Year.

VII. ADMINISTRATIVE BUDGET IMPACT:

There is no staffing impact associated with this Agenda Item.

Stanislaus County Business Development Committee Agenda Item

TO: Business Development Committee

FROM: Doris Foster, Director

SUBJECT:

Approval of the 2023-2024 In-Demand Occupation List for Workforce Innovation and Opportunity Act and Request Authority for the Director of Stanislaus County Workforce Development to Make Exceptions as Necessary

ITEM NUMBER: 5.D.

ITEM TYPE: Discussion and Action

STAFF RECOMMENDATION:

Approve the 2023-2024 In-Demand Occupation list for Workforce Innovation and Opportunity Act and authorize the Director of Stanislaus County Workforce Development to make exceptions as necessary.

POLICY ISSUE:

In-Demand Occupations are occupations that have, or are projected to have, a large number of positions that lead to economic self-sufficiency and/or opportunities for advancement. Workforce Innovation and Opportunity Act (WIOA) section 3(23) (B), states: The determination of whether an industry sector or occupation is in-demand under this paragraph shall be made by the State board or local board, as appropriate, using State and regional business and labor market projections, including the use of labor market information.

DISCUSSION:

While regulations require the Workforce Development Board to approve the In-Demand Sectors, the local Workforce Development Board has requested to review and approve the In-Demand Occupations List. Workforce Innovation and Opportunity Act allows eligible individuals in need of occupational skills training to select the training program that will best meet the individual's employment or career goal with the caveat that the local Workforce Development Board may limit the choices for training to occupations that are In-Demand in the local area. Stanislaus County Workforce Development (SCWD) provides a list of existing and emerging In-Demand Occupations to inform participants of occupations that are most likely to provide viable employment in the local area as required in WIOA Sec. 134(c)(3)(G)(iii).

The proposed 2023-2024 In-Demand Occupations list utilized Lightcast, which was vetted by the Department's Data Analyst and is the primary data analytics tool used by the Department.

Lightcast enables the Department to generate reports that show demand in the local area and the ability to identify prospective occupations for the In-Demand list. Lightcast allows Stanislaus County Workforce Development (SCWD) to obtain up-to-date occupational analysis based on the most recent Quarterly Census of Employment and Wages (QCEW) of the previous year. The In-Demand Occupation methodologies were calibrated as follows.

In-Demand Occupation Methodology

Occupations were screened based on Lightcast data.

Industry-Specific Occupations

1. For each of the 5 Targeted Industry sectors, selected the top 50 occupations with the most jobs in 2022
 - a. Agriculture Forestry Fishing and Hunting
 - b. Construction
 - c. Health Care and Social Assistance
 - d. Manufacturing
 - e. Transportation and Warehousing
2. Selected Occupations with Median Hourly Earnings greater than \$17.01
 - a. 2022 Lower Living Standard Income Level (LLSIL) at 200% for a single adult to determine the rate for self-sufficiency.
 - i. https://edd.ca.gov/Jobs_and_Training/pubs/wsd21-06att1.pdf
3. Selected occupations in projected 5 Year Forecast (2022-2027) with positive growth rate

Attachment 1 includes occupations identified to be In-Demand for Program Year 2023-2024, thus allowing for use of WIOA training funds for Vocational Trainings. Occupations selected are in the top 50 of industry Sector 2022 jobs, have median annual earnings greater than 200% LLSIL, and projected growth in next 5 years. No occupations with an average wage below 200% LLSIL are included in the In-Demand Occupations list. Work Based Learning programs, such as transitional jobs and on-the-job trainings may access all in demand occupational opportunities.

Attachment 2 shows those occupations previously included in the 2022-2023 In-Demand Occupations list and the reason why they are no longer included in the 2023-2024 In-Demand List, as well as those occupations added for the 2023-2024 In-Demand Occupations listing.

The Board has discretion to modify the attached In-Demand Occupations list as necessary. The Director of the Department has the ability to make exceptions to the In-Demand Occupations list on a case-by-case basis. An example of such an exception is when an employer guarantees a job to an individual pending completion of a training program for an occupation that is not on the list.

ADMINISTRATIVE BUDGET IMPACT:

There is no Budget Impact associated with this item, however, approval of the In-Demand Occupations List allows funds to be expended on vocational skills training targeting occupations that will result in greater employability of participants.
